# THE PAROS FOUNDATION REPORT

# ABOUT US

## our history

Since 1999, The Paros Foundation's principal supporters, the Strauch Kulhanjian Family, have worked to raise awareness of Armenia's rich culture and promote it on the world stage.

Launched in 2006, The Paros Foundation has earned a reputation as the "go to" organization to oversee project implementation in Armenia. Beginning with our support for six exemplary local non-governmental organizations working with children, people with disabilities and the arts, the foundation works to help build a sustainable and vibrant homeland while improving living conditions for its most vulnerable populations. Our goal is to develop high quality, high integrity non-governmental organizations in Armenia by significantly upgrading their working environment, providing guidance and needed resources. This includes providing inspiring office space, free of charge, to three of the six organizations we work with in Armenia.

## our mission & vision

The mission of The Paros Foundation is to effectively implement humanitarian, educational, cultural and development projects; and to support trusted local organizations in partnership with the diaspora.

The Paros Foundation strives to implement small and medium sized projects in Armenia in partnership with the diaspora. Furthermore, we strive to bring Armenia and the Armenian community worldwide closer through our unique model of philanthropy, volunteerism and service.

## our promise

The Paros Foundation underwrites all administrative and overhead costs allowing 100% of donor contributions to go directly towards projects and supported organizations.

## WORD FROM THE CHAIRMAN

I take pride in the collective successes of The Paros Foundation. Our generous donors, strategic partners in the US and Armenia, and dedicated staff have worked together to positively impact thousands of people throughout Armenia. 2016 was the 10th anniversary of The Paros Foundation and our vision of creating a philanthropic model that serves as a bridge between the diaspora and needed project implementation in Armenia has come true.

I continue to encourage organizations and individual families to partner with us to make a significant difference in Armenia.

Our family continues to underwrite all of the administrative costs of the foundation, which allows your contributions to be used entirely to support the project of your choice. I hope this commitment continues to inspire more families, more projects and more good deeds for Armenia. Together we can continue to improve conditions and make people in Armenia safer, happier and more economically sound.

Thank you for your support, partnership and confidence in our work.

# EXECUTIVE DIRECTOR'S STATEMENT

---

As Executive Director, I am inspired by the projects, donors, beneficiaries, and staff I have the honor of working alongside.

We continue to support the development of outstanding non-governmental organizations and their leadership in Armenia. We are proud to continue to work with and support The Paros Choir, Unison, Manana, Vanadzor Museum, Vanadzor Music School and Ghoghanj.

In 2015, we commemorated the centennial of the Armenian Genocide by reaching our goal of implementing 100 projects in Armenia. This effort culminated with the launch of the Debi Arach Children's Center in Gyumri. An April 2015 pilgrimage of supporters joined us for the Center's ribbon cutting ceremony.

In 2016, Paros introduced *Projects for Prosperity*, building upon our successful *100 for 100 Projects for Prosperity* model. Along with the Strauch Kulhanjian Family pledge to underwrite all administrative costs, we continue to bridge Armenians from all over the world to help make a substantial and lasting impact in Armenia.

Our work, reputation, partnership and success has grown. While our projects are implemented throughout the country, we place special emphasis on projects in Gyumri and in communities along the Armenia/Azeri border. It is a source of pride for us when The Paros Foundation is sought out by potential donors, international and local partners, and local officials to implement needed projects. A special thank you to our donors who enable us to implement projects with their support

## PROJECTS FOR PROSPERITY

To honor the centennial of the Armenian Genocide, The Paros Foundation launched the Paros 100 for 100 Projects for Prosperity initiative in the fall of 2011. Through this effort, 100 special projects were identified and implemented aimed at making Armenia stronger and improving the lives of her people. The project categories for this effort included: Development; Humanitarian; Educational; and, Cultural. Our historic 100th project was the launch of the Debi Arach Children's Center in Gyumri in April of 2015.

The Paros Foundation Founder and Chairman, Roger Strauch, and his family, remained committed throughout this campaign to underwrite all administrative costs associated with the foundation's operation, allowed all donor contributions to be allocated 100% to their chosen project.

Following the successful implementation of the Paros 100 for 100 campaign, The Paros Foundation reached the decision to continue this model of project-specific based philanthropy through Projects for Prosperity. Please visit "Our Work" to view available projects on our website [www.parosfoundation.org](http://www.parosfoundation.org).

DEBI ARACH CHILDREN'S CENTER

## ABOUT THE CENTER

The Debi Arach ("Moving Forward") Children's Center in Gyumri, Armenia was established on April 15, 2015. The center provides 170 children necessary academic, psychological, social and humanitarian support they need weekly by professional staff and volunteers. The center provides counseling with a psychologist on staff, homework help and tutoring for almost every subject children learn in school including English, Math, Art/Design, Computer classes and a Vocational program.

Children receive a nutritious meal each day, helping them obtain the calories and/or nutrients they would otherwise not receive. Furthermore, the Center addresses a very important hygienic need by providing the children in attendance with supervised bathing facilities. The goal is to help hundreds of children mature into successful young adults and work to break their family's cycle of poverty.

Students participate in their choice of several programs including computer programming classes using a curriculum developed by the Union of Information Technology Enterprises, 3D printing and related software and programming.

# PILGRIMAGE TO ARMENIA

APRIL 24, 2015

To commemorate the centennial of the Armenian Genocide, 28 Paros sponsors from throughout the United States joined Founder and Chairman, Roger Strauch and Executive Director, Peter Abajian on an eight day "Pilgrimage to Armenia."

Highlights of this once-in-a-lifetime experience included visiting

Tsitsernakaberd (the Armenian Genocide Memorial), the Etchmiadzin ceremony canonizing our 1.5 million martyrs as Saints, and the System of a Down concert on Republic Square. One of the memorable moments of the trip was visiting Gyumri and witnessing the official launch of the Debi Arach Children's Center--the 100th project of the Paros *100 for 100 Projects for Prosperity*. Proceeds from the Pilgrimage were used to help complete renovations to the Hatsik School Gym, and to sponsor an excursion for orphans from the Kharpert Home For Special Children.

# PROSPERITY ON THE BORDER

INFRASTRUCTURE \* DEVELOPMENT \* EDUCATION

## PROSPERITY = SECURITY

Armenia's northeastern border communities live under the constant threat of Azeri sniper fire. In many of these villages, more than 50% of the land remains unusable (both for cultivating and grazing) due to its proximity to the border. In other villages, inadequate infrastructure left over from Soviet times has created unbearable conditions for families to live, learn and work. Many of the husbands and fathers in these communities are heroes--serving as contract soldiers protecting our

borders in their villages-- while others are forced to find work as migrant laborers in Russia. To address the critical issues of economic development, education and rural living conditions, The Paros Foundation conducted an assessment of border village infrastructure, economic assets and potential and humanitarian needs in several villages in both the Tavush and Gegharkunik regions. Through this assessment, a comprehensive approach to charitable investment in these

important border communities was developed, coordinating both public and private efforts to solve specific village needs. Launched in 2015, The Paros Foundation's Prosperity on the Border campaign has implemented several major infrastructure, economic development and humanitarian projects in border communities including Nerkin Karmir Aghbyur, Aygepar, Baghanis, Koghb, Verin Tsakhavan and Vahan villages.

## Support Our Heroes

While what has become known as the Four-Day War was unfolding in April of 2016, The Paros Foundation launched the first Armenian-American organizational response to this crisis. In the early hours of April 2, Azerbaijan launched an aggressive military attack along the front line of contact with the Nagorno Karabakh Republic. As a result of this gross violation of the 1994 cease fire agreement, 108 Armenians were killed including soldiers, volunteers and innocent villagers. The Paros Foundation met with the family of each of the victims, paid our respects and provided each family with \$1,000 of financial support. Later, having collected an excess of funds, our team worked closely with the Defense Ministry of both Armenia and Artsakh to implement several additional projects including support for several other soldiers and their families, wounded or otherwise affected by the war. The Paros Foundation was proud to implement this important project on behalf of the diaspora for our Heroes.

# ORGANIZATIONS WE SUPPORT

The Paros Foundation supports six exemplary organizations in Armenia. These organizations are leaders in their respective fields. Support is provided in the form of organizational operating funds, the provision of office space, operational resources and mentoring. The goal is to assist these organizations manage their growth and attract financial, human and physical resources to their respective causes.

## GHOGHANJ CHILDREN'S CENTER

Established in 2001, the Ghoghanj Children's Center provides after-school and summer school programs to "at-risk" children from economically challenged families at two Yerevan locations. Their goal is to provide the necessary academic, psychological and social support to ensure that these socially vulnerable children are able to excel in school and become self-confident young adults. Their dedicated staff and volunteers guide the children through several core classes including English, Russian, computer, design painting, theater and dance.

To promote the student's interest in math and science, a high tech engineering lab and related programming curriculum was purchased and installed at both Ghoghanj locations. Students will be able to learn computer programming, robotics, and 3-D modeling and printing.

The Paros Foundation has been proudly supporting the Kentron and Nor Nork centers with rent-free program space and financial support.

## MANANA YOUTH CENTER

Since 1995, the Manana Youth Center has been providing children with training in film production, animation, photography and journalism. They aim to create literature, works of art, media, radio and television programs, films, and educational games for children and encourage creative, unprejudiced thinking among the youth.

With support from the European Union, Manana implemented a series of regional media workshops throughout Armenia aimed at developing interest among young Armenians. The result was the creation of 17.am, a platform available to Armenian youth throughout the country to interact and promote their work.

The Paros Foundation continues to provide rent-free office space to house their program and financial support for their core classes.

## THE PAROS CHAMBER CHOIR

Since 1993, the award-winning Paros Chamber Choir has impressed audiences around the world with international performances in England, Armenia, Georgia, Lebanon, Italy and France. Working with Maestro Raffi Mikaelian, the group has developed into a world-class chamber choir despite the fact that most of the members are disabled and many sing from a seated position.

The Paros Chamber Choir continued to live up to its name as a beacon for Armenia through many notable performances. They shared the stage with Plácido Domingo, sang for Pope Francis and at two World Choir Games in Riga and Sochi securing two silver metals.

The Paros Foundation provided funding and rent-free office and rehearsal space for the choir.

## UNISON NGO

Since 2002, the UNISON NGO has been working to serve and improve the lives of people with disabilities (PWD) in Armenia. Their goal is to help PWD lead independent and productive lives by providing art and computer training, legal advice, psychological counseling, employment training and advocacy.

As a result of their intense and on-going advocacy work, several government buildings were made accessible and several Yerevan-based public buses were fitted with lifts. Furthermore, UNISON represented Armenia at many workshops and seminars regarding people with disabilities throughout the world. They also won and implemented a three year sub-grant from Save the Children on encouraging employment for PWD. UNISON launched Unison Studios, a social enterprise employing PWD to do photo scanning, retouching, restoration and film editing.

The Paros Foundation provided UNISON NGO with financial support and rent-free accessible office space.

## VANADZOR ART SCHOOL

Since 1969, the Vanadzor Art School (formally known as Vanadzor Music School #3) has been providing music and art education to local students. The school was destroyed in the 1988 Spitak Earthquake, but with the help of the San Francisco Arshak II Opera fundraising efforts, Wells Fargo, Armenia Fund, and other donors, the school underwent a complete renovation.

250 students attend the school, excel in their studies and participate in many concerts and competitions. Students continue to receive excellent musical education and several have entered the Yerevan State Conservatory to continue their studies. Paros continues to assist with student scholarships and repairs to the school building including installation of new flooring in the dance room.

## VANADZOR MUSEUM OF FINE ARTS

The Vanadzor Museum of Fine Arts in the Lori Region was established in 1975 and contains an impressive collection of artwork. The Museum houses more than 1,800 works of art including paintings, sculptures, drawings, prints and decorative arts. A steady flow of tourists and guests continue to visit the Museum and their rich collection of artwork.

The Paros Foundation has been supporting the Museum with marketing efforts designed to raise awareness regarding its significant collection of art in an attempt to help redevelop and reinvigorate the historical art colony in the Lori Region.

# FINANCIAL SUMMARY

*A look into our finances from 2015-2017*

## INCOME

The Paros Foundation successfully hit the \$1 million fundraising mark in 2015. This milestone was surpassed in both 2016 and 2017 as well. This increase in income allowed the Foundation to implement a greater number of projects in Armenia thanks to the support of its generous donors and the Strauch Kulhanjian family's generous commitment to underwrite administrative expenses.

## EXPENSE

The Paros Foundation continued to make grants to our organization partners in Armenia for their operational expenses throughout this period. Expenses for Paros Projects continued to increase as a result of both larger infrastructure improvement projects and a greater number of projects. Expenses related to the Foundation's operation remained relatively constant, with those costs continuing to be underwritten by the Strauch Kulhanjian Family and other donations earmarked to help with administrative expense.
